**Dynapac CC1200
(rent or buy)**

Highlights

- Designed to easily compact close to walls and curbs
- Robust engine hood is designed for optimal view
- Efficient pressurized sprinkler system with 205 l/54 gal water capacity
- Rollers include efficient eccentrics system for optimal performance
- Optimized Serviceability
- Optimal Edge Presser & Cutter

**BS50-4AS
(rent or buy)**

Highlights

- Honda engine
- Four-stroke rammers
- Minimal maintenance
- High ramming frequency
- High impact energy
- Fast travel speed
- Just one lever for starting, idling and stopping
- 4-stage air cleaner (cyclone, paper filter and 2 foam air cleaners)
- Low oil warning indicator

SP210 (rent or buy)

Highlights

- Removeable water tank
- Easy open water cap
- Center mount handle
- Ductile cast iron baseplate

**BMP Walk behind trench roller
(rent or buy)**

Highlights

- ECOMODE
- Operating weight of over 1.5 tons
- Electric starter
- Single point lifting device
- Drum extensions (610/850mm)
- Combination remote control cable/ radio with LED indicators
- Dual directed-vibration system and Intelligent Vibration Control
- BOMAG Operator Safety System
- Automatic shutdown at low oil level
- Automatic engine shut down at a lateral tipping angle of >40°

**MVH408DE Reversible
Plate Compactors (rent or buy)**

Highlights

- Reliable engine with Hatz diesel offering electric start-up.
- Improved travel speed.
- Cyclonic pre-cleaner for engine protection
- Designed for harsh operating environments
- Hydraulic controls can switch direction from forward to reverse while also allowing for spot compaction.
- Features open design for easy cleanup.
- Steel frame protective guard for engine protection also serves as a lifting bar for easy portability.
- Extension plates can be added or removed to operating working width up to 6 inches.

Ho-Pac Compactor Drivers (for sale)

Ho-Pac compactor drivers save time and money by boosting productivity, expanding versatility, and eliminating the need for specialized machines. Their rotating eccentric weight delivers powerful vibration and impulse energy for efficient soil compaction and driving of sheeting, beams, posts, pilings, and seawalls.

Highlights

- Available Ho-Pac models 1600, 2300, and 4000
- Rammers for machines from 3,000 lbs to 300,000 lbs
